## What’s Happening This Month.....

### **2s** - Mrs. G. & Mrs. Obaker

April is here and it is finally spring! Your children continue to grow and develop, and it is a privilege to be a part of that! We are excited for a fun and busy month. This month we will explore signs of spring as we learn about bees, birds and sunflowers. Our bee theme includes making paper plate bees and making honey cornbread muffins...such a fun and tasty unit! Spring is such a great time to explore bird nests, eggs and the beauty of birds. The warmer weather will make our playground time a perfect time to explore. Spring has sprung!

### **3s - Mrs. Placek & Mrs. Turner**

The warmer weather is here, and we are ready to enjoy all spring has to offer! During our spring-themed unit, we will be looking at plants and flowers, learning about their life cycle, what they need to grow, and doing some gardening of our own. Next, our unit will focus on bugs and insects with an emphasis on appreciating the wonders of earth's tiniest creatures. We are excited to announce the start of our "Student of the Day" project where each child will have a special opportunity to showcase a bit of themselves for their classmates. Look for an email regarding details for this activity! Happy Spring!

### **3s – Mrs. Musci & Mrs. Rainsley**

With warmer weather here, we're excited to embrace everything spring has to offer. Soon, we'll dive into plants and flowers, exploring their life cycle, growth needs, and even doing some gardening ourselves. After we wrap up our plant unit, we'll shift our focus to bugs and insects, emphasizing the fascinating world of Earth's smallest creatures. We'll also kick off our "Student of the Day" project, giving each child a special opportunity to share a little bit about themselves with their classmates.

### **4s – Mrs. Brown, Mrs. Powell & Mrs. Eby**

This month, we're welcoming spring by wrapping up our unit on weather and learning about the changes that the new season brings. Students will be observing the life cycle of a plant with their own mini greenhouse, checking in on Pumpkin Jack's sprouts, and studying the parts of a tree. We'll start a fun unit on pizza and ice cream which will include turning our dramatic play center into a pizza parlor and baking pizzas of our own. We'll also begin our Star Student show-and-tell project. Look for more info on that to come home with your child and on Bloomz. We hope you had a restful, fun-filled spring break!

## **DIRECTOR'S NOTES**

We are still taking registration forms for Dulaney Day Extended (Camp) which will run from Tuesday, May 26th - Friday, June 5th. If you need a registration form, just email, or ask me!

We still have a few openings for the 2026-2027 school year. Feel free to spread the word!

Save the date for a 4s graduation ceremony on the last day of school, May 22<sup>nd</sup> at 9:30 am! Invitation with additional information to follow.
